A CLEAR AND COMPELLING PURPOSE

VISION

Our vision is for our teachers, staff and parents to work together to create responsible, confident and enriched citizens who aspire to uphold the Islamic values of self-discipline, mutual care, and respect.

Muneer Academy has been dedicated to its mission of developing a generation of Muslim Americans who can succeed academically and represent Islam in society at large since 2018. The vision is to provide this desire to serve, which is achieved through the development of Islamic character and the provision of leadership opportunities and rewards.

Students are required to complete 10 hours of community service as part of their graduation requirements, and many go above and beyond. This is the Muneer Academy's strategy for achieving its vision to instill noble character and righteous leadership in students.

MISSION

Muneer Academy will provide an enriched learning community that encourages the importance of academic excellence, leadership and Islamic morals.

Muneer Academy strives to provide students with the resources they need to support life-long learning and an Islamic climate that fosters noble character and righteous leadership. Muneer Academy's dedication to upholding high academic standards in an Islamic setting encourages students to concentrate not only on their studies, but also on their innate curiosity, reverence for knowledge and a willingness to use their intellect for the development and service of society.

Our method is to teach the value of sacred knowledge and relate the sources of Islam in the example of the Prophet Muhammad ﷺ and the Holy Quran.

GROWING NEEDS OF OUR COMMUNITIES

Muneer Academy started as a small school located in Masjid Uthman Bin Affan and has evolved into an academic competitor through with the grace of Allah ﷻ. Through a framework of continuous development, community support, and faculty and staff dedication, Muneer Academy has been able to work towards achieving its vision. InshaAllah with sustained efforts and encouragement from the community Muneer will continue to progress and achieve its goals.

Our academy was founded because we recognized the growing needs of our communities to establish an educational institute meant to shape our Muslim American youth. In order to serve the various layers of our community, the foundation of Michigan Islamic Institute (MII) was laid in 2013 to educate our male students from across United States. Several years later, we were blessed with the resources to open a branch of Michigan Islamic Institute for our local community members. The new branch, Muneer Academy opened in 2018 solely to provide an opportunity for local Muslim students to benefit from gaining a strong foundation in Islamic studies alongside full-time academics. The purpose is to preserve the upcoming generations in America by educating them in Islamic and secular education with a true scholarship.

In 2017, Mifataah Institute was established to empower and educate Islamic values within the lens of the Prophetic teachings of unity and mercy. We strive to make our programs accessible and approachable for college students and professionals that aspire to enhance their knowledge and spirituality. Mifataah is based out of Warren, Michigan and offers a rich transformational journey of learning Classical Arabic, Quranic literature, and Prophetic tradition in an inclusive environment.

MEMORIZATION OF THE HOLY QURAN

Our Hifdh Program aims is to produce qualified huffadh and protectors of the Holy Quran. The complete memorization of the Quran is a noble method of preserving the Islamic religion and we are proud to offer this opportunity to our students. We employ a method of memorization that focuses on tajweed rules and retention. Our small class sizes are designed to promote one-on-one interactions to strengthen the student-teacher connection. Students also have the opportunity to connect frequently with reputable scholars in and out of the classroom, allowing them an enhanced education.

Assessments and evaluation of memorized sections of the Quran will be conducted periodically to ensure that the student retains the material, which the student is required to pass in order to move forward with memorization. Muneer also focuses on nurturing our students' character and moral values by implementing additional classes to learn the basics of Islamic sciences with duas, Prophetic Biography, and Islamic Jurisprudence.

PASSION FOR EXCELLENCE

Our Hifdh Program is designed to focus on the individual's capabilities and potential. Students of this course will be taught methods to memorize the Holy Quran with proper tajweed. The syllabus has been prepared in a manner that enables each student to memorize the entire Quran and retain it through consistent revisions and testing.

The full hifdh program is divided into four years of memorization. In the first year, the goal for students is to complete Nadhira with tajweed and memorize two Juz of the Noble Quran. In the second and third year, students are expected to memorize 27 Juz. The last year will require the completion of memorization and the revision of the Quran three times. Upon complete memorization of the Holy Quran, students will be awarded with a prestigious certificate of "Hafidh al-Quran" by Muneer Academy. This will accredit our students to teach Quran and lead congregational Islamic prayers (for brothers).

ADVANCED ISLAMIC STUDIES

The Aalimah Program aims to build a firm groundwork in religious studies, fostering balance in faith and exemplifying honorable moral character. The Aalimah Program is a comprehensive six-year curriculum that focuses on classical Islamic sciences and thought. Our principal objective is to familiarize students with the core subjects of Arabic, Quran, History, and Hadith with the ultimate goal of providing different pathways suited for all students to succeed in this life and the next.

Our mission is to instill the love of Allah ﷻ and His Prophet ﷺ, as well as the holy principles of deen in each student at the completion of this program. Graduates will possess the necessary experience and ability to serve in roles such as a scholar, activist, counselor, youth leader, or teacher. They will be entrusted to continuously build a positive Muslim identity while strengthening their commitment to their religion, family, and community.

PASSION FOR EXCELLENCE

Our courses are intensively packed to cover all required core subjects and books found in true, traditionally-grounded Islamic studies programs. The program aims to build an extensive knowledge of Arabic grammar and rhetoric, aiding in the learning of the principles of Quran exegesis, hadith, Islamic jurisprudence, and theological studies. Our classical teaching method emphasizes teacher-student interaction and provides the opportunity to learn from esteemed Muslim scholars. Our small class size with reputable teachers offers an ideal environment for promoting an authentic connection to Islamic learning and the transmission of religious knowledge directly from teacher to student.

Taught by certified scholars in a traditional setting, the Aalimah Program relates the teachings and practices of the Prophet Muhammad ﷺ. At completion, students will be awarded a certificate (ijazah) proclaiming their qualifications in the various fields of Islamic sciences.
